

# LOWER TRAILING ARM BUSHES

## Part No. 46093

to suit

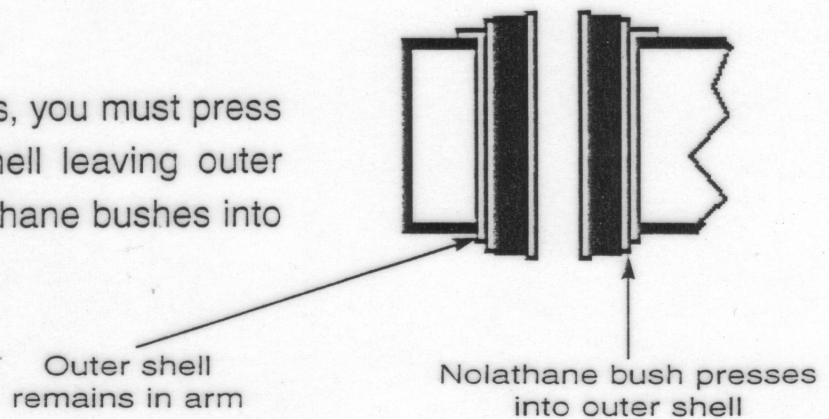

Nissan Pintara	R31	87-90
Nissan Skyline	R31	87-90

The original equipment arm has an outer steel shell into which is pressed the steel shelled bush.

Care must be taken when replacing these bushes to leave the outer shell (with the shoulder) in the arm. The Nolathane replacement bush of 46093, presses into this outer shell.

When fitting Nolathane bushes, you must press the bush out of the outer shell leaving outer shell in arm. Then press Nolathane bushes into arm.
