

NEW PRODUCT SOLUTIONS FOR TOYOTA YARIS!!

Nolathane are pleased to release its latest range of replacement and alignment rectification solutions for the front control arms suiting the **2005-on Toyota Yaris**

As with most compact vehicles these days, vertically mounted rubber control arm rear bushings are a common wearing & service item. **Nolathane** has this covered with a standard replacement solution and offset option to rectify wheel alignment issues (caster) and counteract heavily cambered roads that typically causes the car to pull to the left on straight roads.

MacPherson Strut FWD

With Lower Control Arm eg: Japanese

TOYOTA Yaris NCP90R, 91R, 92R & 93R Sedan & Hatchback (11/05-on)
