

Various Applications - **Nolathane** complete sway bar link kits are the total solution - they include links, bushes and hardware. Original sway bar links in Commodore, Falcon, Patrol, Subaru and Landcruiser are a regular or heavy duty replacement. On most late model Subaru's the OE links are plastic and are prone to flex & crack in high performance vehicles - **Nolathane** Evolution alloy sway bar link kits permit articulation of the axle whilst providing improved response that you can feel.

	Part #	Model	Length	Comments
	42951 42952 42953 42954 42955	Sway bar - link kit (Threaded)	140mm 165mm 202mm 240mm 280mm	Both OE & universal fitment heavy duty replacement sway bar link kit. Each kit includes a pair Heavy Duty Sway Bar Links, Nuts & Washers (Bushes not incl.)
