What's New From Nolathane?

There is a great deal happening at Redranger with a new Nolathane website, new products and applications and four new product update flyers to keep the information flowing. They are summarised as follows:

New Nolathane Website

The new Nolathane website is now up and running and is very informative, so check out www.nolathane.com.au

The new site has a live version of the Nolathane catalogue that allows you to see all of the latest products, information and technical data with a click of the mouse.

On the website you will find information on:

- Why Nolathane your car?
- Marketing Support
- Automotive and Industrial Products
- Product Updates and Bulletins
- Suspension Terminology and Identification
- How to machine Nolathane
- Request bush size data and view photos of products

New Products & Applications

Redranger has just launched 30 new Nolathane part numbers, five new vehicle listings

and over 50 new applications, which are all visible on the Nolathane on-line catalogue. Pictured: Great range of ball type links available.

Some of the new products include:

- Sway bar mounts for late model Subaru, Rav4 and Prado.
- Ball style sway bar links for VZ Commodore, BA Falcon and GQ-GU Nissan Patrols.

Sales Opportunity & Product Update Sheets

Four new double sided product update sheets in a new format have just been mailed to resellers and the trade and these also can be viewed or printed from the new website. These updates have summarized sales opportunities on one side with more detailed technical information on the reverse and this information includes helpful diagnosis tips and profit opportunities.

Updates included are:

- Update 0501 = AU-BA Falcon front lower inner control arm bush to replace OE hydraulic bush.
- Update 0502 = Subaru alloy sway bar links plus replacement bushes.
- Update 0503 = Information and how to diagnose failed hydraulic (fluid filled) original equipment suspension bushes.
- Update 0504 = Nolathane lowering blocks and U-bolts.

So, if you have any questions go to www.nolathane.com.au or call Jason, Andy, Cheryl or Doug at Redranger on 1300 882 355.

Pictured below: Update 0501, 0502, 0503 & 0504 = Examples of latest product updates.

WANT IT TO HANDLE?

NOLATHANE YOUR STREET MACHINE!

Nolathane suspension bushes synchronise your suspension system for optimal safety, handling and performance. They are the most positive link between your vehicle's springs, struts or shocks.

Nolathane offers alignment correction and adjustment via offset bushes, shims, eccentric centre tubes and adjustable strut mounts.

Unlike soft rubber bushes, which distort under heavy braking or cornering loads, Nolathane bushes maintain alignment settings and offer complete reliability.

- Improved handling
- Crisp steering response
- Boosted braking accuracy & control
- Prolonged life of suspension bushes and tyres
- 2 year or 40,000km warranty on parts and labour
