

NEW PRODUCT SOLUTIONS FOR MITSUBISHI MODELS!!

Nolathane are pleased to release its latest range of replacement and alignment rectification solutions for the front control arms suiting the latest 4 cylinder Mitsubishi range.

As with most compact vehicles these days, vertically mounted rubber control arm rear bushings are a common wearing & service item. **Nolathane** has this covered with a standard replacement solution and offset option to rectify wheel alignment issues (caster) and counteract heavily cambered roads that typically causes the car to pull to the left on straight roads.

F/R Description	Part #	Kits Req	Bushes in Pack	Alignment	Notes
F Control arm - low er inner front	45365	1	4		
F Control arm - low er inner rear	45656	1	2		Std replacement
F Control arm - low er inner rear	45657	1	2	X	LH offset - RH std alignment
